08:45 h

Reception and organization

09:00 h

Presentation of the workshop

09:30 h

Screening of beneficial microorganisms to control root rot of olive trees
Ikram Legrifi (ENAM)

10:00 h

Safe and fair deposit of microorganisms: The Budapest Treaty and Nagoya Protocol
Felizitas Bajerski and Melania Muñoz García (DSMZ)

11:00 h

Pause

11:15 h

Mycorrhizas and regenerative agriculture in horticultural crops. The AgriRegenCat project
Xavier Parladé (IRTA)

11:45 h

Metabolomics in plant-microorganism interactions
Biancamaria Senizza (UCSC)

12:15 h

Effect of cover crops, fertilizers, and edaphoclimatic factors on soil microbiota in vineyards
Marc Viñas (IRTA)

12:45 h

Questions

13:00 h

Closure of the workshop
